Prof. Rajesh Ch Paliwal

Message

It gives me great pleasure and honor to welcome you to the inaugural issue of the **Journal of Social Issues and Development**. I on the behalf of the editorial team take this opportunity to thank our advisory board members, authors, joint editors and anonymous reviewers, all of whom have volunteered to contribute to the success of the journal. An enormous amount of work has done into the development of this journal and I believe you will see that effort reflected in coming edition and in the impact, it will have on the field.

JSID is dedicated to the rapid dissemination of high-quality research papers. The journal editorial team is committed to maintain a high international and scientific standard by publishing original research studies and review articles of research studies in order to establish the journal as one of the informative journals. We welcome contributions that can demonstrate leading practical usefulness, particularly contributions that take a multidisciplinary and convergent approach.

JSID provides an ideal forum for exchange of information in various formats: full length and letter length research papers, survey papers, work-in-progress reports on promising developments, case studies and best practice articles. To ensure rapid dissemination of information, we aim at completing the review process of each paper within 20 days of initial submission. Accordingly, we have “raised the bar” for acceptance. For a paper to be published in JSID, it must not only be methodologically immaculate but also have substantial conceptual novelty and a potentially large impact on the field.

Finally, we wish to encourage more contributions from the community to ensure a continued success of the journal. Authors, reviewers and guest editors are always welcome. We also welcome comments and suggestions that could improve the quality of the journal.

(Rajesh Ch Paliwal)
